Engaging citizens in education and cultural heritage curation

- **An innovative approach:**
Engaging citizens in education and cultural heritage curation
- *Cultural Heritage Institutions are constantly looking for new ways to involve citizens in their activities.*

Avicenna Expounding Pharmacy to his Pupils.
Welcome collection, CC-BY

Collaboration with the Cultural Heritage sector

- *The project engages with stakeholders and professionals in the digital cultural heritage domain, establishing collaboration for knowledge sharing and co-curation between academics and stakeholders.*
- *We want to see how:*
 - *Citizen engagement in the Cultural Heritage institutions can link directly into scientific publications*
 - *Higher Education institutions can play a role in supporting Citizen research in Cultural Heritage*

Focus on technological innovation and participation

- *The project aims to test how the latest technological innovations to manage digital cultural heritage can support and enhance Citizen Science participation, both from a pedagogical and heritage perspective.*
- *For this, we use the CrowdHeritage platform on which we already have accrued a lot of experience.*
- *We will investigate what needs to be added to move from crowdsourcing to active citizen science engagement*

GOAL

By adding, upvoting or downvoting tags, you help visitors of Europeana.eu to find what they're looking for among 52 million digitized works of art and cultural artefacts. Become a guide through the wondrous hallways of this immense treasure trove by picking descriptive keywords from the drop-down list. Add as many as you like, pinpointing places, people, objects, historic periods, pictorial styles or photographic qualities. With your contribution you're truly making a difference: thanks so much!

From crowdsourcing to Citizen science

- Take user contributions seriously
- Make these contributions traceable
- Give due credits
- Respect privacy and authorship
- Provide an ethics and deontology framework
- Manage discord, conflict and divergent opinion

FAIR principles

- Findable
- Accessible
- Interoperable
- Reusable
